

Annals of “Dunarea de Jos” University of Galati, Fascicle XII, Welding Equipment and Technology (<http://www.if.ugal.ro/AWET.htm>) is an international peer reviewed journal covering both the basic science and applied technology of welding and joining, being published annually in 100 copies per volume, since 1990. Its comprehensive scope encompasses all welding and joining techniques (brazing, soldering, mechanical joining etc.) and aspects such as characterization of heat sources, mathematical modelling of transport phenomena, weld pool solidification, phase transformations in weldments, microstructure-property relationships, welding processes, weld sensing, control and automation, neural network applications, and joining of advanced materials, including plastics and composites.

Annals of “Dunarea de Jos” University of Galati, Fascicle XII, Welding Equipment and Technology publishes invited or suggested reviews (maximum 15 pages), original research articles (maximum 10 pages), short research notes (maximum 5 pages), book reviews (maximum 2 pages), opinions (maximum 2 pages).

Abstracting and indexing services that cite *Annals of “Dunarea de Jos” University of Galati, Fascicle XII, Welding Equipment and Technology* include: Elsevier-Scopus, Ebsco, ProQuest (Engineering Collection, Materials Science Collection, SciTech Collection and Technology Collection), Google Scholar etc.

Manuscript submission

Submission of an article implies that the work described has not been published previously (except in the form of an abstract or as part of a published lecture or academic thesis), that it is not under consideration for publication elsewhere and that, if accepted, it will not be published elsewhere in the same form, including electronically, in English or in any other language, without the written consent of the copyright-holder. Electronic submission substantially reduces the editorial processing and reviewing times and shortens overall publication times. Manuscripts should be sent using the editorial contact data.
